Global Online Retailer

Location: Swansea Building

Type: Warehouse

Project Value: Multi-million

This eCommerce giant needed to expand the capacity of their warehouse located in Swansea and chose RSR to act as principal designer and principal contractor. This involved managing health and safety along with a sub contractor on site to enforce the tight programme. The tasks were delivered on time, within budget and with no health and safety incidents on site.

They received a **high** level of **quality and service** on this project which delivered exactly what the client wanted. The project involved reviewing the **design** and **installation** of the mechanical air movement, the **electrical** supplies and **lighting**, **fire alarm system** and the **sprinkler system** throughout the new pick tower. RSR also installed a full **CCTV system** throughout the tower to ensure **high standards** of security.

Scope of works:

- Principal contractor for 2017 capacity expansion project.
- Manage all contractors' welfare and Health and safety on site.
- Review design and manage installation of new pick tower.
- Design and install Mechanical air movement throughout the new pick tower.
- Design and install Electrical supplies and lighting throughout the pick tower.
- Design and install fire alarm system and VESDA through the pick tower.
- Design and install Sprinkler system throughout the pick tower.
- Design and manage installation of 2x Goods lifts within the pick tower.
- Design and install CCTV throughout new Pick tower.
- Manage installation of new sprinkler tank and suction line to pump house.
- Manage installation of new conveyor system within working warehouse.
