

RSR were instructed to do a **CAT-B fit out** within a limited time frame for a **global medical company**

Hemel Hempstead  
Refurbishment: 16 weeks  
Project Value: £550,000

---

The client is a global medical technology company dedicated to transforming lives through innovative medical solutions. In the UK they focus on providing advanced medical devices and therapies to improve patient outcomes in various fields, including cardiology, endoscopy, neuromodulation, and urology

Power and data cabling for the two auditoriums was both a **challenging and learning experience**. The open plan office spaces, adorned with multiple pendants, exude a cool vibe and created a **vibrant and dynamic atmosphere**

The project was successfully completed within the allocated time frame and budget, despite the challenging and tight schedule constraints. This achievement was made possible through meticulous planning, effective resource management, and the dedicated efforts of the team, who worked tirelessly to ensure that every milestone was met on time.

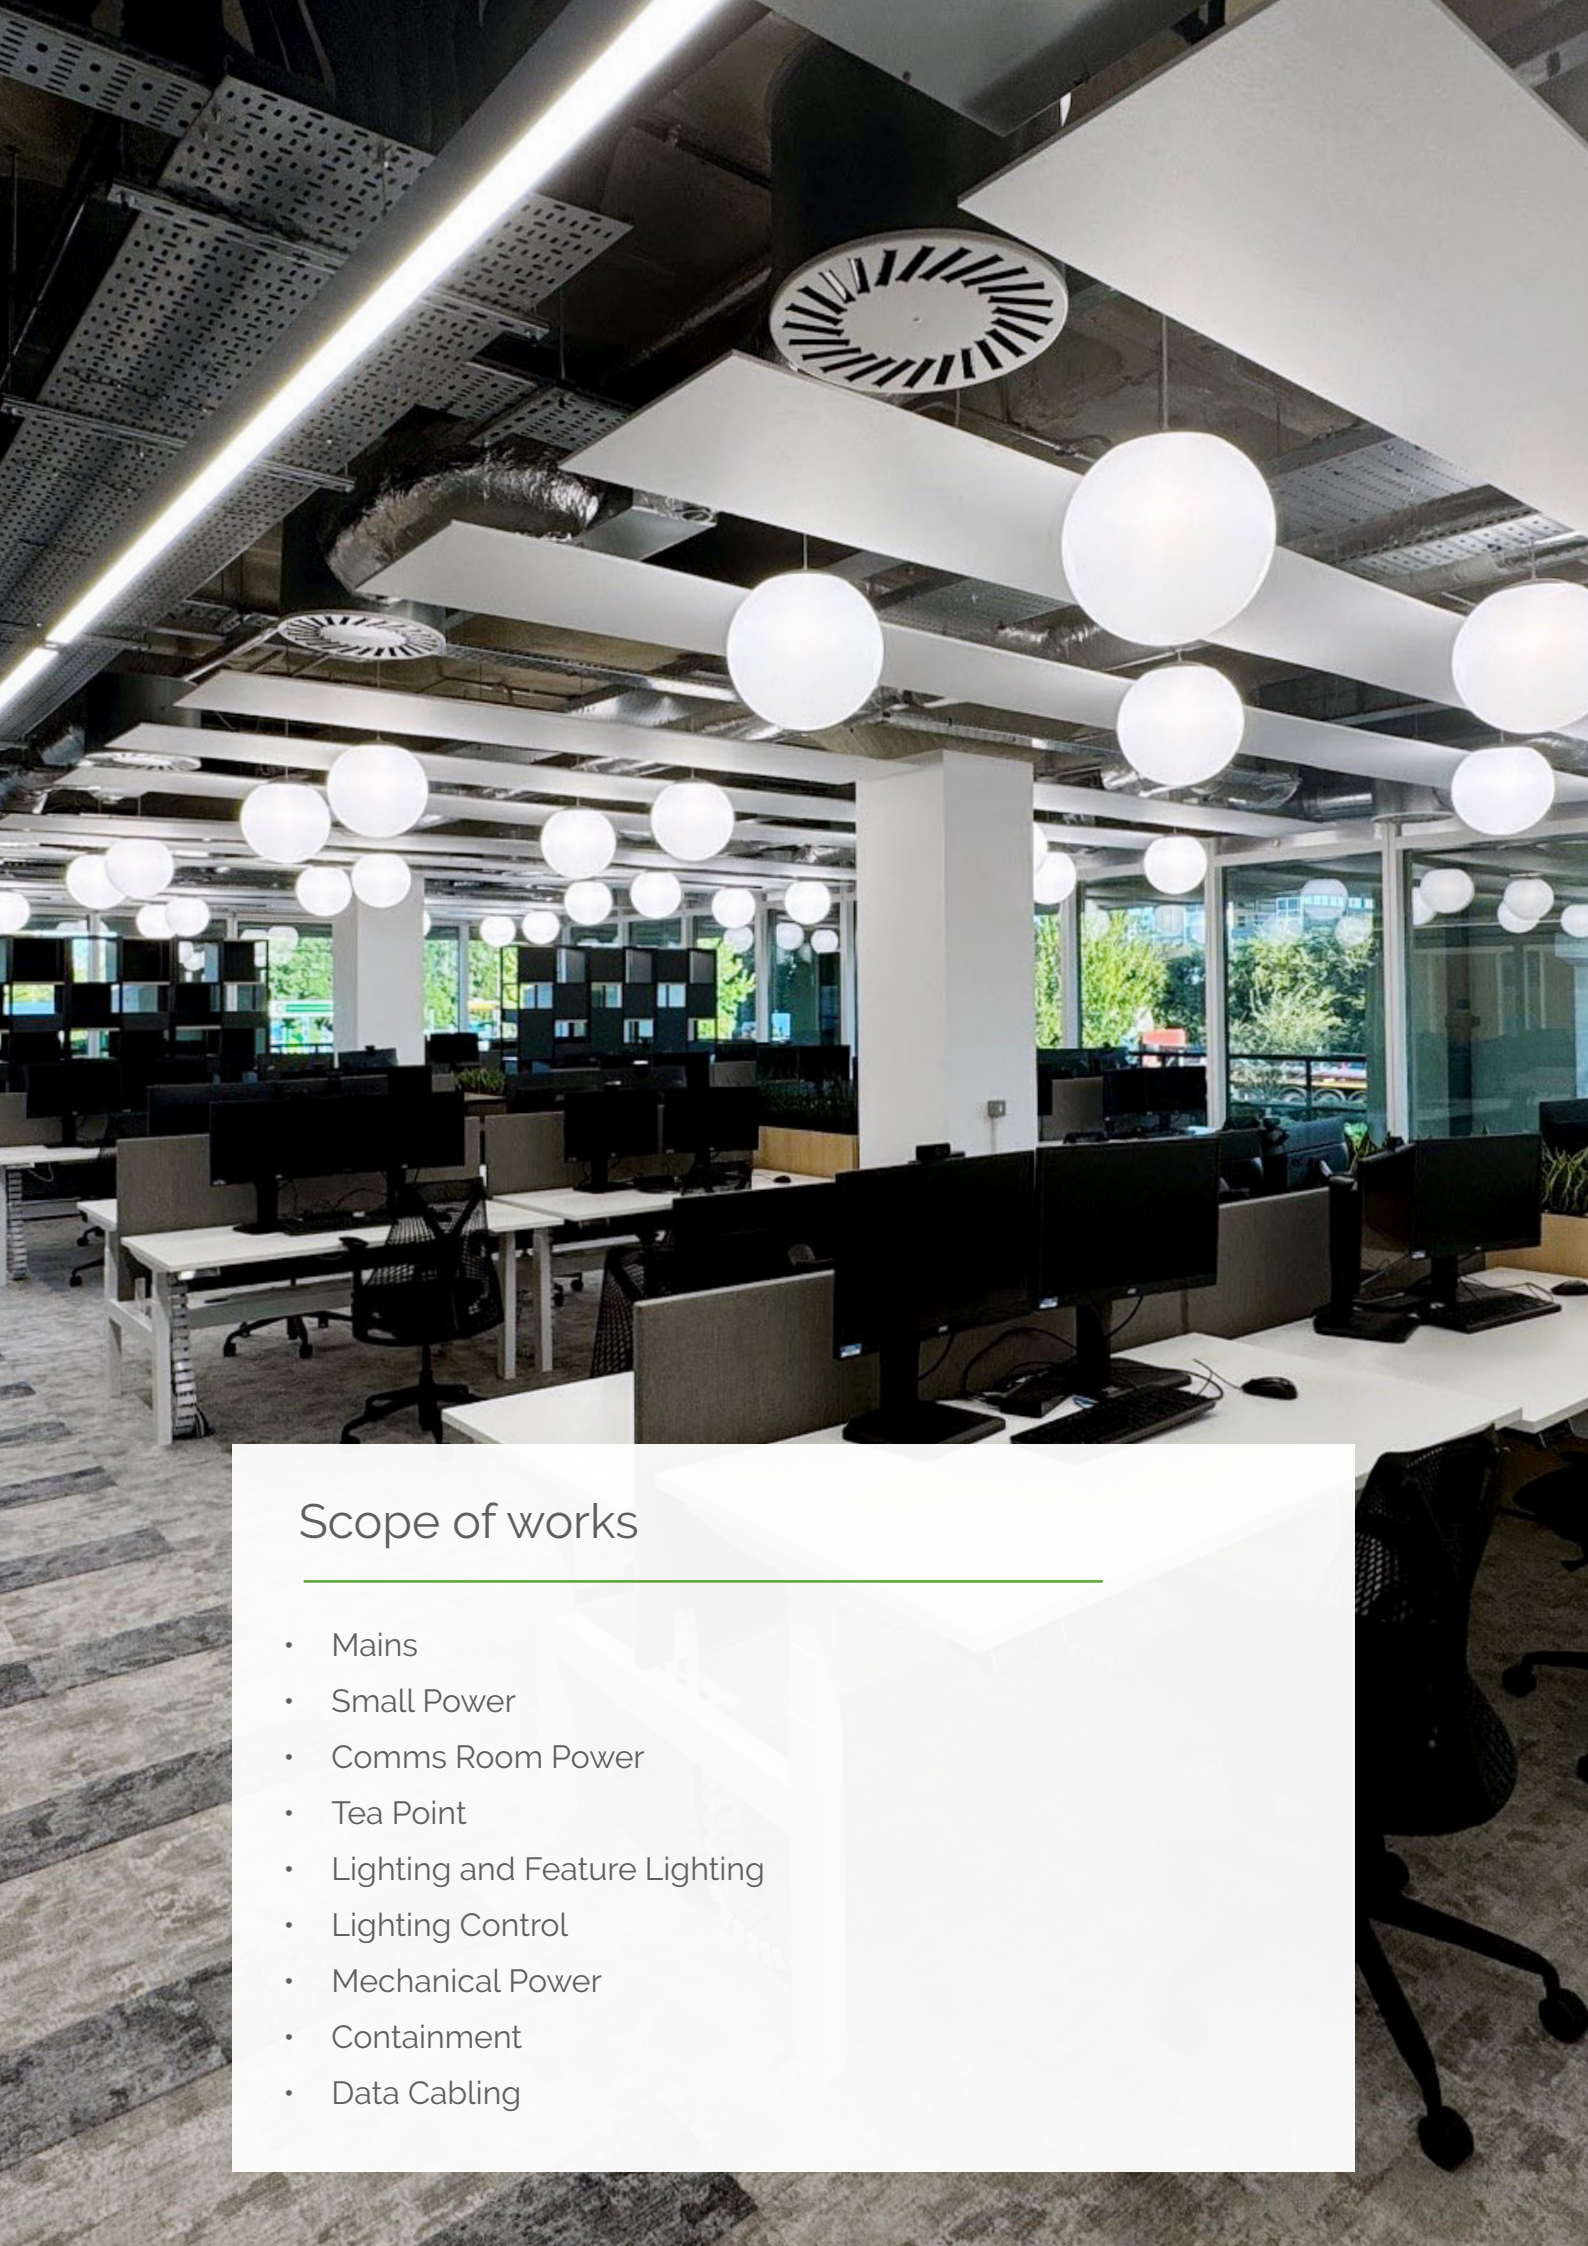

Shuttle bus
