Building Type: Single floor

Industry Type: Industrial Client (Office Fit-Out)

With group sales of €36 billion and a workforce of around 25,500 employees in 2014, OMV Aktiengesellschaft is one of Austria's largest listed industrial companies.

RSR was given the job of **installing new power** and **lighting systems** for OMV's new London office at 62 Buckingham Gate.

The project brief was to **create a neutral** and **flexible lighting** solution for OMV's new **working** and **social space** that **merged effectively** with the clean white aesthetic theme running throughout the premises.

RSR achieved this by using drop row lights to help highlight furniture and social spaces, in tandem with bespoke drum pendants clustered and centrally positioned at various heights.

Adding in LED ribbon tape and down lighting to feature ceilings in the client meeting rooms, RSR managed to create a finished space that gave the new offices a modern, polished and professional look, which the client loved.

- Comms Room Power
- UPS System
- Mains Distribution
- Small Power Distribution
- LED Dimmable Lighting Feature
- Pendant Lighting
- Emergency Lighting
- Intelligent Lighting Control
- Fire Alarm System
- VESDA
